## Elixir Pro Line™ Flush Glazed Fiberglass Door

Our *Elixir Pro Line™* Flush Glazed Fiberglass doors were designed to address and rectify many of the common fiberglass door industry issues - out performing our competitors. LVL stiles, GBG insulated glass with a one piece warm edge technology, and sharp panel profiles all contribute to up to a DP70 market leading performance.

### Product Features

#### Aesthetics

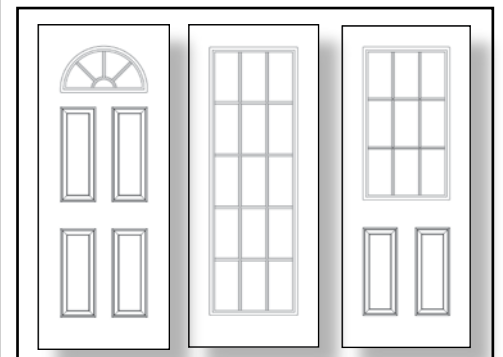

- Flush Glazed: No Raised Lite Frame
- Sharp Panel Profile
- Three Skin Options
  - Smooth
  - Textured Oak
  - Pre-finished Med. Oak (full Lites)
- One Piece Contoured White GBG and White Space with Warm Edge Technology
- Architecturally Correct Alignment of Lite Frames and Door Panels.

#### Flexibility

- Broad Product Offering
  - Back, Side, Front Door and Sidelites
- Full Lite

#### Performance

- Fiberglass skin
  - Rot, rust, and dent resistant
- Flush Glazed (molded open) vs. Cut Out Slab
  - No Doors to Cut Out
  - Completely Enclosed Foam
  - No Door Lites / Screw Plugs to install
  - No Cutout Waste to Dispose of
- High DP Rating: Full Lites +/- 70
- 1" Insulated Glass
  - Warm Edge Technology
  - High Performance Non-Yellowing Contoured GBG
- Lite Frame - Leak Resistant Snap-Fit Design
  - High Performance Non-Yellowing
  - Heat Resistant Silicone Sealant:
    - Will not run in hot weather
  - Paintable / Stainable
- CFC Free Foam  
Environmentally Friendly

## Features:

- 1 Long Moisture Path - Moisture must travel through several barriers before reaching the sealant.
- 2 Superior Silicone sealant to stop any moisture penetration.
- 3 Gap between lite frame and the door allows the material to expand or shrink - prevents warping.
- 4 Snap-Fit design distributes the load evenly on the entire frame resulting in an even seal around the frame. The Snap-Fit construction also counteracts any loading on the door lite for superior impact resistance.

Tight integration of door, insulated glass and frame produces superior weather (wind and moisture) resistance.
