Range Hoods

Elixir Industries continues the tradition of offering our customers quality products in our Range Hood line. With either ductless Range Hoods or regular Range Hoods, you can be assured of a quality product.

Features:

- Listed for use in U.S.A. and Canada (CSA)
- Single Switch Gauging of all systems
- Totally enclosed light
- Washable aluminum filter
- Total current draw merely 2.5amps* (12 VDC)
- Air exhaust volume: 138 CFM
- Available in baked enamel of Almond, White, or Black
- Optional Exterior Vent Covers

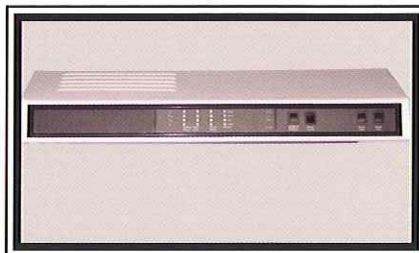

*Current Draw May Vary on CSA Models

Ductless Range Hoods

The Ductless Range Hood affords for easy installation while using a charcoal-based system to help eliminate cooking odors. Our Ductless Range Hood draws air in and an aluminum filter element eliminates airborne grease. While being drawn in, the air flow passes through a charcoal system helping to eliminate cooking odors.

The clean and filtered air is directed upward away from stove and Range Hood.

Features:

- Listed for use in U.S.A. and Canada
- Designed to conform to ANSI A119.2 and NFPA 501C
- Replaceable Aluminum Screen and Charcoal Filter
- No Exterior Ducting required
- Monitor and Non-Monitor Panel versions available; single switch gauging of all systems
- Totally enclosed light
